SUMMARY

Principal Product Designer with 12+ years of experience designing intelligent, human-centered experiences across AI, enterprise platforms, and global products. At Oracle, I lead design initiatives for clinical AI agents, defining interaction models, motion-rich prototypes, and reusable frameworks for multimodal, generative AI experiences. Known for bringing clarity to ambiguity, establishing interaction standards, raising the bar for design quality, and translating complex capabilities into intuitive solutions that align teams, accelerate execution, and reduce cognitive load. Proven track record connecting cross-functional teams, influencing product direction, and turning ambiguous challenges into scalable, user-centered experiences.

SELECTED EXPERIENCE

Oracle | New York, NY (Remote) | April 2025 – Present

Principal Experience Designer, AI Native & Agentic Systems at Clinical AI Agent

- **Developed future-state concepts and experience visions through high-fidelity prototypes** that communicated product vision, defined how AI agents collaborate with clinicians through conversational behaviors, and aligned executives around roadmap decisions.
- **Created the interaction language that guided multiple AI initiatives**, defining reusable interaction patterns and implementation-ready designs that translated emerging capabilities into scalable product experiences.
- **Partnered closely with Engineering throughout implementation**, resolving feasibility challenges, protecting design quality, and minimizing rework through implementation-ready designs that accelerated delivery.
- **Led research and discovery across multiple AI initiatives**, synthesizing clinician insights into product opportunities that shaped design strategy, informed roadmap decisions, and championed the voice of the customer.

U.S. Bank | New York, NY | Sept 2022 – April 2025

Senior Product Designer, Design Systems & AI Personalization

- **Led end-to-end design execution of consumer experiences** through scalable voice search across responsive web, and native.
- **Helped scale the enterprise design system across 250 teams**, driving 40% adoption and establishing foundational principles for over 1,500 partners.
- **Improved delivery efficiency by 37% and reduced costs by 33%** by building reusable components that eliminated technical ambiguity and aligned cross-functional stakeholders.
- **Facilitated design workshops and mentored senior and mid-level designers**, fostering cross-functional collaboration, design alignment, and a culture of co-creation.

Meta for Business | New York, NY | March - September 2022

Senior Product Designer, Business Tools & Global Systems at Meta Platforms

- **Designed global business tools used by 23,000 organizations across 75 countries**, simplifying complex workflows while improving discoverability, consistency, and usability.
- **Partnered with Product and Engineering to align design with user needs and technical constraints** through co-creation sessions.
- **Leveraged data-driven insights and partner feedback** to inform design decisions, ensuring global solutions aligned with business and platform strategy.

EDUCATION

Masters of Fine Arts, Montclair, NJ, 2010 - 2012

Studio Arts and Photography, Montclair State University

Bachelors in Fine Arts, Skopje, Macedonia, 2004 - 2009

Painting, Drawing and Design, University of ss. Cyril and Methodius

Math and Science High School, Niko Nestor, Struga, Macedonia, 2000 - 2004

AWARDS

1st place - Innovation in Design, 2023

Accessibility and inclusion with AI

Gold Design Award, 2023

Concept and animation for Spark

Gold Shield Design Award, 2022

U.S. Bank branch and ATM locator pages

Merit Scholarship Award, 2010 & 2011

Studio Arts, Montclair State University, NJ

CORE COMPETENCIES

- Product Strategy & Vision
- Systems Thinking
- Interaction Design
- AI Product Design Human-AI Interaction
- Visual Storytelling
- User Research
- Experience Strategy
- Cross-functional Leadership
- Rapid Prototyping
- Motion Design
- Visual Design

CERTIFICATES

2.0 - Accessibility Fundamentals, June 2024

Deque Systems

UserZoom Platform Essentials, May 2023

User Research and User testing

UX/UI Program, NYC, 2020

UX Design/Research, General Assembly
